IT'S ALL OFF.

Springfield is to Retain Its Inter-State League Club and Wheeling is Dropped. President Power Opposed to Sharp Criticism.

SPECIAL DISPATCH TO THE INTELLIGENCER.

SPRINGFIELD, O., July 21.—President Power, of the Inter-state base ball league, late to-night said: "After having practically closed with Wheeling parties for the transfer of the club to that city, certain matters wholly unexpected are making it difficult for me to carry out the plans mapped out. About this time solid and substantial business men of Springfield sent for me and made a strong plea for this city."

"I then submitted to them a proposition, which, briefly, was that the Inter-state league, be reimbursed for money paid to Springfield players, that a certain amount of cash be placed in the hands of Manager Whistler and that certain gentlemen pledge themselves to keep the club on its feet until the close of the season, this proposition was accepted and the matter closed. One of the obstacles encountered was the refusal of Wheeling parties to assume liability for salaries from July 15. Players refused to consent to the transfer unless provision be made for paying them from the 15th. The \$500 guarantee was turned over to President Power to-night and he will leave for home in the morning."

HOW IT WAS RECEIVED.

The news that Wheeling after all would not secure the Springfield team and franchise came last evening at 6 o'clock, after Mr. Howell had spent a busy day preparing for the Opening Day's game this afternoon. He had encountered unlooked for enthusiasm on the part of the fans who promised their loyal support, and the cranks were busy discussing Wheeling's excellent chances to beat out the Toledo champions; and then the way the boys discussed the coming of Torreyson's Grand Rapids team! They promised to turn out then 1,500 strong and give the McKeesport bluffer the roasting he deserves for mulcting Wheeling out of Inter-state membership last spring. Mr. Howell had had the grounds put in excellent shape, tickets for the games had been placed on sale at several drug stores, advertisements had been given the newspapers, and several thousand hand bills were being printed.

And then came the trouble. It was in the shape of a telegram from President Power, at Springfield, stating in effect that all was off, he had been restrained from taking away Springfield's team, and the players had refused to leave.

Of course this was like forked lightning out of a clear sky, and Mr. Howell, who has already invested considerable money, was badly broken up over the surprising turn of affairs. He wired Power and Whistler for further details, but neither responded, and the first detailed information received was the Intelligence's special dispatch printed above.

Mr. Howell has Power's telegram stating that he had granted the franchise to Howell for Wheeling, and it looks as though he would have a good case for damages and might compel the Inter-state league to turn over to Wheeling the Springfield franchise if not the players.

It's an even thing Power will be knocking at Wheeling's front door again before many days. Base ball in Springfield cannot be sustained and this city is the only one worth considering when the Ohio town finally flickers. Mr. Power is subject to severe criticism for granting Mr. Howell the franchise and then going back on his agreement. The facts in the case are plain and convict him. Abuse is not necessary.

Dandruff is Dangerous

When dandruff appears it is usually regarded as an annoyance. It should be regarded as a disease. Its presence indicates an unhealthy condition of the scalp, which, if neglected, leads to baldness. Dandruff should be cured at once. The most effective means for the cure is found in AYER'S HAIR VIGOR. It promotes the growth of the hair, restores it when gray or faded to its original color, and keeps the scalp clean and healthy.

The dandruff has been entirely removed and my hair is now soft, smooth and glossy and fast regaining its original color.

EIGHTY-FIVE HORSES

Have Arrived From the East for the Wheeling Running Meeting.

About eighty-five horses had arrived last night for the running race meeting at the state fair grounds, which begins Monday, and 200 horses are expected to be here for the opening. The long-tails to be entered are said to be some of the fastest in the country, and one of the promoters said if some records were broken, for he considered the Island track a speedy one.

The horses were given a whirl over the track yesterday by their trainers. They are owned in Philadelphia, New York, Baltimore and New Jersey. On the first day there will be three races of four and one-half furlongs each, and two of six furlongs each. On succeeding days the races will be lengthened, but it is not thought advisable to push the horses too far the first day after coming from their stables. There will be five races each day for \$100 purses, to be divided as follows: First money, \$75; second, \$15, and third, \$10.

The race meeting officials are as follows: President, W. S. Douglas; judges, Edward Wall; starter, James Underwood; secretary, John Wall; treasurer, Robert Lester.

Mr. Douglas is now in Pittsburgh, seeking to effect excursion rates to Wheeling for each day of the races. The meeting will certainly be ten days or more. Licenses were taken out yesterday for twenty-seven days.

The police are still trying to catch the tramp who attempted to criminally assault Mrs. George Nidermeyer, in the Boggs' run tunnel, but the fend has likely separated himself from Benwood by considerable area. Marshall Furber and Officer Shipner yesterday paid a visit to Roseby's Rock, where it was reported he was, but there was nothing in the report.

At council's meeting Tuesday evening next an assistant tax collector will be elected. His business will be confined to the collection of delinquent taxes, for which he will receive a commission. The creation of this office will lift a load from Marshal Furber's shoulders, and may bring in quite a revenue to the city. There are several applicants for the position.

The effect was like magic, and I now feel that to this great discovery I owe, perhaps, my life.
